ENI CBC MED Concept note

Call Deadline: July 3rd, 2019

A.3.1 - Provide young people, especially those belonging to the NEETS, and women, with marketable skills

http://www.enicbcmed.eu/node/109

Title: ATC

Idea: carry out action-training courses on entrepreneurship and innovation, designed to provide young people the skills necessary to set up a startup or to work in one

Target Group: young people, especially those belonging to the NEETS, and women

General Description

ATC project will carry out action-training courses in the participating regions, designed and tested in previous projects (Interreg MED Technopolis).

These courses will prepare participants to create a startup, focusing on the necessary skills of innovativeness, organization and growth mindset.

In the end, some participants will create their own startups, while others will be prepared with the specific skills needed to work in a startup.

Idea Output

Alumni of ATC courses prepare to create or help create a startup

Activities

WP1. Management

WP2. Communication

WP3. Prepare online platform and structure formative contents

WP4. Pilot Actions with ATC courses and pitch competitions in all regions

WP5. Capitalization activities
